Normally around 50% of the teams should be marked in each criterion.

Lifts and Acrobatics

Lifts, acrobatics and building pyramids are allowed and encouraged.

Any acrobatic trick or pyramid that is performed with good balance and full control will be rewarded.

How to perform the Artistic Pole & Aerial Dance Show competitions

- a. Artistic Pole and Aerial Dance Show is a choreographed performance that sometimes could be improvised.**
- b. The character of the performance could be in any style. It is important to use gymnastic acrobatic elements taking place on the poles and on the floor between the poles. Gymnastic elements must be in harmony with the choreography. It is very important to connect ideas, music and choreography. Presentation and image is also important. Variety and the grade of difficulty will be evaluated. It is important with skillful dancers in Duos, Trios and Teams, but the team is judged as a team and not on individuals in the team.**

Criterion for Judging

- a. The judges will reward clever choreography, technical skill and acrobatic elements. The use of innovative, modern figures and movements within the style of dance, that is being performed, will be highly rewarded.**
- b. During the qualifying rounds the judges will use the 2-dimensional system by giving two crosses, one for Artistic Merit, the other for Technical Merit.**
- c. In the Final the judges use the 2-dimensional system by giving two sets of placing. One set for Artistic Merit, the other for Technical Merit.**

Open marking is not to be used.
